essence: [noun] the permanent as contrasted with the accidental element of being. the individual, real, or ultimate nature of a thing especially as opposed to its existence. the properties or attributes by means of which something can be placed in its proper class or identified as being what it is.

### Essence | Definition of Essence by Merriam-Webster

In philosophy, essence is the property or set of properties that make an entity or substance what it fundamentally is, and which it has by necessity, and without which it loses its identity. Essence is contrasted with accident: a property that the entity or substance has contingently, without which the substance can still retain its identity.
