This weekend my 2008 ford edge overheated on the hiway. My wife noticed smoke or steam coming from the right side of the hood. I immediatley looked up at the temp guage and it was red Hot. I pulled over and look under the hood. I did not see any leaking hoses but noticed that the fans were not turning. I also looked at the fuses but they were good.

This video shows you how to open the hood in your 2008 Ford Escape. Popping the hood on your Escape is a two step process, you need to release the hood latch inside your Escape and then you need to release the safety latch under your hood in the front of your Escape. The video above shows you the location of both hood latches.
