Development theory is a collection of theories about how desirable change in society is best achieved. Such theories draw on a variety of social science disciplines and approaches. In this article, multiple theories are discussed, as are recent developments with regard to these theories.

Development theory - Wikipedia

History of anthropology in this article refers primarily to the 18th- and 19th-century precursors of modern anthropology. The term anthropology itself, innovated as a New Latin scientific word during the Renaissance, has always meant "the study (or science) of man".The topics to be included and the terminology have varied historically. At present they are more elaborate than they were during ...

History of anthropology - Wikipedia

In the same way that the theory of biological evolution applies to both the fossil record and contemporary life, a good theory of urbanism should apply to both the archaeological record and contemporary urban systems [22, 23]. In this paper we apply this approach to studying cities as complex systems.

The second group are pacifists. The task of just war theory is to seek a middle path between them: to justify at least some wars, but also to limit them (Ramsey 1961). Although realism undoubtedly has its adherents, few philosophers find it compelling. The real challenge to just war theory comes from pacifism.
