One of the most common heart defects in babies is a PDA, or patent ductus arteriosus. It sounds scary, but it can be fixed. Learn what you need to know to choose the best treatment.

Patent Ductus Arteriosus (PDA): Symptoms & Treatment

A patent medicine, also known as a proprietary medicine or a nostrum (from the Latin nostrum remedium, or "our remedy") is a commercial product advertised to consumers as an over-the-counter medicine, generally for a variety of ailments, without regard to its actual effectiveness or the potential for harmful side effects. The earliest patent medicines were created in the 17th century.

List of patent medicines - Wikipedia

Onion: Onions have been found valuable in heart disease. They are useful in normalising the percentage of blood cholesterol by oxidising excess cholesterol. One teaspoon of raw onion juice first thing in the morning is beneficial in such cases. Honey: Honey has got marvellous properties to prevent all sorts of heart disease. Honey tones up the heart and improves the circulation.

A (Patented) Heart Disease Cure That Works!: What Your ...

Heart disease treatment is a huge industry, and the industry at large does not appreciate competition from a common vitamin that can be produced for a handful of pennies per dose, does not require a prescription, and is effective both as a cure and for prevention.

Reversing Heart Disease with a Vitamin

On the contrary, medical pioneers long ago uncovered the cause of cardiovascular disease, aka "heart disease." It is hardly known that Linus Pauling, arguably the greatest scientist of all time, invented a rapid, nontoxic cure for the condition. Fortunately, this claim was made on video and was patented.
