A Third Window: Natural Life beyond Newton and Darwin by ...

Ulanowicz presents the case for a third window, or frame, to view nature: process ecology, which is far better suited to the reality of complex living systems. Based on his 30+ years of researching ecosystem dynamics, he points out that they violate "each and everyone of the Newtonian presuppositions."

Robert E. Ulanowicz is professor in Theoretical Ecology with the University of Maryland and his A Third Window. Natural Life Beyond Newton and Darwin appeared in 2009. Already his choice of subject tells something about his way of thinking. For ecology does not deal with fixed objects but with relations and processes, wholes and systems.

Third Window Brewing

As a Third Culture Kid, flight is a natural part of my life. I am inherently conditioned to love it, mainly because it's the birthplace of how I became a TCK. Flight has opened up the ability for people to shuttle all over the world, and it has made TCKs so culturally diverse because we can actually travel to hundreds of places a year.

staring out the window | Third Culture Kid Life

A Third Window, similar to his 1997 book, *Ecology: The Ascendent Perspective*, are written at a level that enables curious non-scientists to grasp deep insights into the dominant paradigms which scientists have viewed nature. These have been primarily structured around the mechanistic and
