Los programadores LISP no adoptaron el estilo funcional por razones meramente estéticas. Lo usan porque facilita su trabajo. En el entorno dinámico de LISP, los programas funcionales pueden ser escritos a una velocidad poco usual, y a la vez, pueden ser inusualmente confiables. En LISP es comparativamente fácil el depurar los

Tips using Allegro Common Lisp - Department of Computer ...

In Allegro Common Lisp, each time you enter the debugger, the state of the lisp world is saved and the top-level loop is called recursively. You can tell you are in the debugger because a

Where To Download Allegro Lisp Manual

number will appear in the prompt which tells you how many levels deep you are (i.e. how many times you've entered the debugger without leaving it).:
