The HILDA data show that around 12 per cent of Australians aged 15 years or older have used illicit drugs in the past year. The majority of these - 11 per cent - are using cannabis. Men are twice as likely as women to have recently used illicit drugs, and illicit drug use is most common among people aged in their early 20s.

It took some time, but Canadian cannabis producers appear to have finally embraced selling cheaper pot. The so-called value segment of the Canadian cannabis market - defined by one analyst as having a retail price below \$6 per gram - has exploded in recent months; it accounted for slightly more than 40 per cent of all dried flower sales in July, up from 10 per cent of the market last September ...
