impact and effect on apple, which is a US-based company, of the political bonds of the US government with the Chinese government is also taken in the account. One of the major concerns of Apple is that if it tries to get an alternative to production in China, it will increase the cost of production, resulting in an increase in prices of Apple products.

In 2005 Apple won a legal case about a blog that pre-introduced new Apple products. With this trial, Apple force Bloggers to name the source of their information because the company suspected that the information had leaked from its employees. [1] Therefore, Apple is always vulnerable to leaks from various employees.
