On your Apple Watch, tap Settings > General > Reset > Erase All Content and Settings. Type your password if prompted. For GPS + Cellular models, choose to keep or remove your cellular plan. If you want to pair your Apple Watch and iPhone again, keep your plan. If you don't want to pair your Apple Watch and iPhone again, remove your plan.

### Unpair and erase your Apple Watch - Apple Support

When your Apple Watch is ready for its bath, find the nearest water faucet and turn it on so that there's a slow, steady stream of warm water. You don't need to go overkill with a Niagara Falls-like stream—you want just enough water to adequately wash out the gunk that's trapped inside of the digital crown.

### How to Fix a Sticky or Stuck Crown on the Apple Watch

1Password released version 7.7 of its Mac app yesterday, adding support for macOS Big Sur. But that's by far the least interesting part of this update because you can now, #finally, unlock 1Password using your Apple Watch. Unlocking 1Password previously required entering your Master Password which, if you've created a good one, can take a fair few keystrokes.
