Picciano, Anthony G. Journal of Asynchronous Learning Networks, v16 n3 p9-20 Jun 2012. Data-driven decision making, popularized in the 1980s and 1990s, is evolving into a vastly more sophisticated concept known as big data that relies on software approaches generally referred to as analytics. Big data and analytics for instructional applications are in their infancy and will take a few years to mature, although their presence is already being felt and should not be ignored.
