The Chinese tradition of fishing with cormorants dates back at least 600 years. Photographer Joel Santos, who has visited these fishermen many times since 2006, found that the Canon EOS 5D Mark IV enabled him to shoot in tougher lighting conditions on this trip. "The dynamic range and high ISO performance has improved, so this camera copes better with low light," he says.

I have been told that the EOS 5D series is going the way of the EOS 7D series. There will be no direct DSLR successor for the EOS 5D Mark IV.. The source claims that the EOS 5D Mark V development was stopped "some time ago", and that there are no plans to make an EOS R5 version of the popular professional DSLR line.. The same source adds that Canon is obviously aware of the popularity of ...

There will not be an EOS 5D Mark V [CR2] | Canon Rumors

Today we are very excited to be reviewing the Nikon D780 and comparing it to the Sony A7 III and Canon 5D Mark VI! This Nikon update has all of the top of the line for the entry-level camera, It's not the D850 - so it's 24 megapixels but it has a really nice processor, great phase-detect autofocus system, it has the eye detect AND it has all of the video features you'd see in the Z6!

After some months I can confirm the first impression. Actually, from an ergonomic perspective I find the EOS R superlative, and the multi function bar extremely useful and an integral part of the overall experience. Looking forward for more RF lenses in the second half of 2019. I normally shoot with a Canon 5D mark iv and the Canon 1 D X mark II.
