However, as car design evolved to position the motor in front of the driver, the dashboard became a panel that protected vehicle occupants from the heat and oil of the engine. With gradually increasing mechanical complexity, this panel formed a convenient location for the placement of gauges and minor controls, and from this evolved the modern ...

Dashboard - Wikipedia

Instrument clusters can be analog, digital, or a hybrid of the two. Most cars nowadays have both analog and digital components, with needle gauges driven by stepper motors. Most cars nowadays still have analog instrument clusters despite the increasing popularity of digital instrument panels.
