OpenLibrary is a not for profit and an open source website that allows to get access to obsolete books from the internet archive and even get information on nearly any book that has been written. It is sort of a Wikipedia that will at least provide you with references related to the book you are looking for like, where you can get the book online or offline, even if it doesn't store itself. Therefore, if you know a book that's not listed you can simply add the information on the site.

Cna Daily Flow Sheet Documentation

FLOW-SHEETS One of the most important documents a CNA will use is a chart often called a flow-sheet. CNAs usually use flow-sheets to document the following important information: Vital signs (i.e. pulse, respiration, blood pressure)

MEDICAL RECORD DOCUMENTATION

documented. Usually, the place for this documentation is on the back of the pre-printed "ADL" or "CNA" form. If you notice a change in the patient's condition you need to document it and tell the

Once the CNA has documented the ADL, whether through paper or electronic documentation, the nurse assessment coordinator (NAC) must look at all of the ADL information gathered across all shifts for that seven-day look-back period in order to code the MDS. Section G on the MDS requires coding ADLs that have occurred three or more times.
