I am working on an ACER Aspire X1700 with Vista 64 bit. I can only login under safe mode, and am unable to run antivirus setup in safe mode. Customer attempted to do this (after it was too late) but did not uninstall the old antivirus and ran the 32 bit version. I tried to downgrade to XP, but got the blue screen STOP: etc.

I have an Acer Aspire x1700 and have trouble with my current graphics card. I was looking to upgrade the graphics card to a 1GB memory card, but I am having trouble finding a card that will fit and work with my lower power supply. So far I've worked out you can get low profile versions of graphics cards for computer's like mine, but I was looking for the best that would work?

What Graphics Card will fit and work with my Acer Aspire ...

It often happens that the first problems with the device Acer ASPIRE X1700 Laptop appear only after a few weeks or months after its purchase. After such a long period, many people have a problem with finding documents (such as a user manual) received at the time of purchase, or maybe the documents have already been thrown out, got lost so that it is impossible to find them.
