Your security system can provide up to three kinds of monitoring: intrusion, fire, and emergency. We have designed your DSC Power864 security system to provide you with both flexibility and convenience. Your installer has set up your system with your home or business in mind. You may not need all of the features described in this manual.

DSC PC5020, POWER864 User Manual

Your security system is made up of a DSC Power864 control panel, one or more Power864 keypads, and various sensors and detectors. The control panel is the “brain” of your security system. It controls and monitors all the key-pads and sensors, and communicates with the central station (if remote monitoring is enabled).
