The Window Story Lesson - The Window Through Which We Look
The philosopher Proclus of Athens (412-485 CE), who lived seven centuries later, said that Euclid "put together the Elements, collecting many of Eudoxus's theorems, perfecting many of Theaetetus', and bringing to irrefragable demonstration things which were only somewhat loosely proved by his predecessors."

Euclid - Ancient History Encyclopedia
The window overlooked a lovely park with a lake. Ducks played on the lake while children sailed their model boats. Young lovers walked arm in arm amidst flowers of every color and a fine view of the city skyline could be seen in the distance.
