This book examines European legislation that regulates the safety of consumer products. There are different legal requirements for medicines, machines, electronics, toys and so on, which employ different regulatory mechanisms. Hodges compares the various mechanisms and asks why particular mechanisms are used, or not used for different products.

European Regulation of Consumer Product Safety ...

REACH REACH restricts substances in all consumer products (i.e. textiles, electronics and even product packaging) sold within the European Union. New restricted substances are added every year and include (but are not limited to) lead, cadmium and AZO dyes. This makes REACH a framework that covers all restricted substances.
