Who We Are At 2 A.M. | Hidden Brain : NPR

Everybody Lies: Big Data, New Data, and What the Internet Can Tell Us About Who We Really Are is a nonfiction book by Seth Stephens-Davidowitz published in 2017. The book reflects on the fact that while every human being lies to other humans, they tend to be shockingly honest when searching the internet.

Everybody Lies Summary | SuperSummary

People lie, to friends, lovers, doctors, surveys -- and themselves. However, we no longer need to rely on what people tell us. New data from the internet -- the traces of information that billions of people leave on Google, social media, dating, and even pornography sites -- finally reveals the truth.
