I use the Deluxe 90 DSP with an ESP strat or a fender telecaster or a '78 gibson LP. I really like this amp due to its clean sound, its power, its digital effects, which aren't bad at all. It's good both for rehearsal and gigs. Very good value for money. It's not as god in crunch and drive mode, but it's not meant for that.

This is the Fender Deluxe 90 with one 12' Celestion speaker. The 90 stands for 90 watts. The amp is styled after the classic Fender blackface design; a black back panel and silver grille cloth. This was my first amp purchase as I was looking for something portable, loud and reliable.

I have bought a Fender deluxe 90 for "spares or repair". Serial number M914104 Type PR 402 The bloke I bought it off said it was working fine, until he smelt a Burning smell coming from the amp. It was the loudspeaker which he has thrown out, so I dont know if it was upgraded or stock.

The Deluxe 90-DSP has very nice cleans and works in a variety of different settings, especially quick in and out stuff where I don't want to carry a heavy amp. It is, as csm pointed out, a somewhat cold and sterile clean but it is definitely usable.
