Financial Markets and Instruments Lecture notes

This is a course on finance. It has the word, "markets," in the name, which suggest that it's about trading, but I think it's a broad course in finance. So the blurb says, "Financial institutions are a pillar of civilized society, directing resources across space and time to their best uses." So this sounds broader. I guess the course is broader.

EC 230 lecture notes

Financial Institutions are any establishments that make these markets function efficiently. The course studies the fundamental principles that govern financial markets and institutions. We attempt to understand the workings of the Banking Industry, the Federal Reserve and the behavior of financial intermediaries.

Financial Markets and Institutions Course Syllabus

Capital markets and financial institutions are all around us. This is an enormous industry in which powerful players oftentimes challenge investors and the public at large and expose them to significant risks. This Course provides for the deep understanding of the core ideas, concepts, and mechanisms of the modern capital market in a learner-friendly way.
