This course will provide an application of financial and managerial concepts useful in analyzing hospitality operations. The course will provide a background in financial accounting and financial statement analysis, and use tools to analyze cash flows, results of operations, and financial position.

Using Financial Tools to Make Profitable Operating Decisions

The decision is basically taken about proportion of equity capital and debt capital in total capital of the firm. Higher the proportion of debt in capital of the firm, higher is the risk. A capital structure having a reasonable mix of equity capital and debt capital is called optimum capital structure.
