Leadership, Good Governance and Financial Management in ...

4 GOVERNANCE, CORRUPTION, AND PUBLIC FINANCIAL MANAGEMENT by regulations are not God given but are, rather, man created and thus endogenous to the system. Once bureaucrats realize that they can take advantage of regulations, they will produce more of these. There will thus be more regulations and these will probably become less transparent.

Governance, Corruption and Public Financial Management

This book addresses these issues by providing tools to help assess a government's fiscal health from the perspective of public accountability, including the political economy of the budget, performance-based budgeting, revenue performance, debt management, measuring a government's net worth, assessing fiscal risks, reforming civil service, and strengthening institutions of accountability.

Public Financial Management(PFM) is concerned with aspects of resource mobilisation and expenditure management in the public sector (for definition of public sector please read ACCA's policy document 'Setting high professional standards for public services around the world' (2012) Since the private sector lacks the moral sentiment and incentives of a responsible government to provide for various segments of the economy, including the underprivileged, the public sector's role is significant.

AN INTRODUCTION TO PUBLIC FINANCIAL MANAGEMENT

The first step for any country to achieve its national development objectives is for the public sector to analyze its finances to determine the available medium- and long-term fiscal space to direct resources to its development priorities. Within the available fiscal space, the prioritization of government expenditures should then be guided by the government's policy priorities and careful analyses that show the effectiveness and incidence of different government spending options.
