Flora And Fauna Of The

Flora and fauna refer to plants and animals in the broadest sense of the words, encompassing pretty much all life on Earth. As you might imagine, these are very broad categories and in general scientists break down the different types of flora and fauna into different classifications, ranging from a specific type of life down to an individual species.

Flora And Fauna: Definition And Examples | Science Trends

Flora was a symbol of nature and flowers and fertility in Roman mythology. Fauna. Fauna is all of the animal life. Fauna's name derived from "to favour, nurture," because it was believed by the ancient Roman religion that Fauna is the goddess who nurtures all that is useful to living creatures. Flora and fauna mean plants and animals.

What is Flora and Fauna and Importance of Flora and Fauna ...

The flora and fauna spread across the earth contribute to the aesthetic value of the earth. People visit several biosphere reserves, national parks and zoos, forests, botanical gardens etc. to enjoy the beauty of landmarks. This explains the significance of flora and fauna in our day to day lives.

Flora And Fauna - Meaning, Importance Of Flora And Fauna

Flora and fauna mean plants and animals; the word "flora" is used to discuss plant life, while the word "fauna" refers to animal life. This term is often applied to a specific biome, ecosystem or place, such as "the flora and fauna of the New Mexico desert" or "common flora and fauna of the tundra." These are just two forms of life that can exist in a place and do not include other life forms such as fungi or single-celled, non-plant and non-animal organisms such as bacteria; the general ...

What Is the Definition of Flora and Fauna?

Flora and Fauna: Flora: More than two thirds of the worlds plant species are found in tropical rainforests. There is such a magnificent diversity in plant species because they have been around for for a very long time, some even 100 million years old. During the ice-age about 10,000 years ago, most of the planet was covered in ice which forced ...
