When it comes to all things African, Michael Cassidy is a Christian statesman who walks his talk. He has invested decades of prayer, preaching, and tireless advocacy on behalf of Christ's kingdom on the most ancient of continents. Footprints in the African Sand is Michael's remarkable and highly personal story of how Africa touched his heart... and he, in turn, reached deep into the heart of Africa.

If you are to be noted for your thoughts, let the thought be that which gives unique reasons to ponder for distinctive footprints! If you are to be noted for your deeds, let the deeds be that which touches the heart of Heaven , give noble reasons for action and put smiles on faces (and believing that God sees and rewards every act of good deed) !

Footprints Quotes (101 quotes) - Goodreads

The American mink (Neovison vison) is a semiaquatic species of mustelid native to North America, though human intervention has expanded its range to many parts of Europe and South America.Because of range expansion, the American mink is classed as a least-concern species by the IUCN. Since the extinction of the sea mink, the American mink is the only extant member of the genus Neovison.
