Ford Engine Interchange Guide

Ford Small-Block Engine Interchange Guide: Cylinder Block The engine block is the foundation on which everything is built. What you’ve got to work with determines the best-possible choices for you down the road in your engine build.

Ford Small-Block Engine Interchange Guide: Cylinder Block

Ford Modular Engine Swap Guide: Installation One of the biggest intimidation factors for fitting the modular engine is the size of the engine compared to all but the big-block applications of the past. The engine is fairly wide compared to pushrod applications, which can present challenges for engine installation.

Ford Modular Engine Swap Guide: Installation - DIY Ford

Introducing the Ford Parts Interchange Guide In 1957, Ford Motor Company ushered in a new era of V-8 performance, which ultimately left tried-and-proven Y-Block and Flathead V-8s to history books and nostalgia buffs. The all-new FE-Series family of pushrod overhead-valve V-8s showed Ford in a new light in the years to follow.

DIY Ford Introducing the Ford Parts Interchange Guide

Generally speaking, Ford engines will interchange almost directly provided that they’re within the same engine family. Switching from one engine type or family may require some fabrication, but may be easier on cars like the Fox-chassis Mustang, which used several different types of engine. V8 Engine Families

Ford Engine Swap Information | It Still Runs

Ford Big-Block Engine Cylinder Block Interchange Guide The FE engine family evolved from relatively primitive roots to world-beater status in its first few years of existence. Knowing whether you’ve just found a pedestrian 332-ci block or a rare 427-ci unit takes some special knowledge.

Windsor – Windsor refers to the Windsor engine plant in Windsor, Ontario Canada. Ford added this second engine plant in 1997 to produce 4.6L and 5.4L engines. As noted above, 1997 was the first year the 4.6L showed up in the F-150. Windsor blocks are all marked with a “W” in the block in two places.

Ford Modular Motor Differences. Ranging from early to ...

The current favorite son seems to be the 700-R4/4L60E four-speed automatic, but there are also places where a TH400 might be the best solution for a 1,500-hp, blown LS engine, or a simple 200-R4 fits best behind a 5.3L LS daily driver. As with all interchange stories, a successful swap is dictated by handling all the fine points.

In car tuning culture, an engine swap is the process of removing a car’s original engine and replacing it with another. This may be a like-for-like replacement, or to install a non-factory specification engine. Typically an engine swap is performed for performance, swapping-in a more powerful engine; however, an engine swap may also be performed for maintenance, where older engines may have a ...
