The cap on a front mount distributor is marked. On a side mount dist, trace plug wire from number one to the cap, turn the engine over with cap off and see what direction the rotor turns. remember which goes tot he number one plug, next in line is number two and so forth.

8N spark plug firing order - 55B Tractor

The Ford 8N tractor was the successor to Ford's 2N tractor and was manufactured between 1947 until 1952. Testing the ignition coil can be accomplished using a combination of two methods. On all vehicles, ignition coils amplify the spark so that it can make the jump at the spark plug gap; Ford 8N tractors are no exception.
