About everything I think you will find is between here and the forscan forums itself I added AWD gauge and Keyless entry by manual entries , and dark car mode. But also DRL and a few others options are out there. Need help lemme know, I'm still pretty new with Forscan though trying to figure out remote start

Posted in the 'today' thread, but finally got around to hooking up Forscan on the Flex. Not a ton of options in the simple menus, but a lot in the advanced menus. About all I've done so far is enable the foglights as DRLs. Need to see how common the values are across Ford models to see if other changes can be made via advanced.
