Development issues, theories and policies reflected the modernity of the post WWII period. Since the 1980s development studies has endured increasing critique of some of its central paradigms, such as the universality of the notion of progress and the supposed homogeneity of the Third World, but the current challenge of globalization is perhaps even more fundamental.

GLOBALIZATION AND DEVELOPMENT STUDIES by Frans J. Schuurman

Globalization101 > Issues in Depth > Development > Problems of Development Today. Connect With Us. Problems of Development Today. Today, the problems facing developing countries revolve around what are generally called "structural constraints" to development. First among these is geography—not just in the historical sense described above—but also in the more contemporary aspect that a modern economy cannot function without a division and diversification of labor.

Problems of Development Today | Globalization101

This text provides a comprehensive introduction to the concept of globalization and its challenge to the contemporary study of development. Part I introduces the theoretical issues and debates surrounding globalization, illustrates the often contested nature of the concept, and considers the implications for the future of development studies.

Globalization and Development Studies | SAGE Publications Ltd

The challenges, tensions and trade-offs around sustainable development are necessarily global, as the responses highlight in relation to capitalism and climate change. The concept of sustainable development is fraught with contradictions, especially between 'sustainability' and 'development' (Redclift, 2005).
