As in any form of gambling, there is nothing to be gained and everything to be lost when it comes to investing. Do not put up money that you cannot afford to lose should the market take a downturn. One rule that people seem to refuse to apply in any area of their lives, including the world of investing 101, is lean not on your own understanding. Most of the time, this is the result of people balking at entrusting another person with their money, believing that with a little understanding ...
