Hello, Garden Bugs | High-Contrast Books - duopress

Everyone loves a ladybug, but gardeners hold them in especially high regard. Lady beetles eat aphids, scale insects, thrips, mealybugs, and mites—all the pests gardeners despise. With lady beetles, you get more bang for your buck, because both the adults and the larvae feed on pests. Lady beetle larvae look like tiny, colorful alligators.

Top 10 Beneficial Garden Bugs - ThoughtCo

Today's gardeners know that some chemicals that eliminate bugs in your garden can also be bad for people, pets, and the environment. They're expensive, and they take time to apply. To safely get rid of bad bugs in your garden, start with an Integrated Pest Management (IPM) approach to control threats to

Hello, Garden Bugs: A High-Contrast Book | IndieBound.org

Hoverflies are one of the most valuable of the good bugs to have in your garden. These clever flies imitate bees and wasps to avoid being attacked as they hover over plants waiting for prey like aphids, beetles, and caterpillars. They lay their eggs in aphids so their offspring have a plentiful food supply when they hatch.

Good vs. Bad Bugs in Your Garden | Dengarden

One of the most destructive vegetable garden pests. The squash vine borer, *Melitta curcurbitae*, is a serious pest of vine crops. Attacking summer squash, winter squash, and pumpkins. Cucumbers and melons are not affected as often. In the home gardens, if left unchecked, it is common to loss a whole crops
