Urgent need of help. I moved into a new house with state of the art HVAC. Furnace, HW heater, AC models don't matter in this case. My residential HVAC system is controlled via PLC using a Honeywell WEB-600 controller, with Niagara software which is ONLY digitally controlled from a computer using the default IP-ADDRESS 192.168.2.123.

Honeywell WEB-600 hardware, Niagara software

If Chris Worthington is around I would love to hear from you about this subject. I am trying to connect to a Web 600 controller. I first tried using default user name (honeywell) and password (webs and user all lower case) . I then set up a serial connection and hyper terminal connection and attempted to enter through the serial shell. The instructions were for a Jace controller.
