How the Arabs Invented Algebra: The History of the ...

Islamic contributions to mathematics began around ad 825, when the Baghdad mathematician Muḥammad ibn Mūsā al-Khwārizmī wrote his famous treatise al-Kitāb al-mukhtaṣar fī ḥisāb al-jabr wa'l-muqābala (translated into Latin in the 12th century as Algebra et Almucabal, from which the modern term algebra is derived).

Algebra - Islamic contributions | Britannica

Mohammed ibn-Musa al-Khwarizmi is who invented algebra,and alsoalgebra has a Arabic root which means something like [breaking athing and then assembling it correctly again] .

Did the Arabs invent Algebra? - Answers

As can be seen from the word itself, algebra, which comes from the Arabic al-jabr, one of the basic operations discussed in the influential book made by Arabs about the subject, Arabs contributed a lot to the subject. So much was their contribution that only through the translation of their works did the West learned much about algebra.

Who Invented Algebra? - Who Invented It

Mathematics during the Golden Age of Islam, especially during the 9th and 10th centuries, was built on Greek mathematics (Euclid, Archimedes, Apollonius) and Indian mathematics (Aryabhata, Brahmagupta).Important progress was made, such as the full development of the decimal place-value system to include decimal fractions, the first systematised study of algebra (named for The Compendious Book ...

Mathematics in medieval Islam - Wikipedia

The word "algebra" is derived from the Arabic word الجبر al-jabr, and this comes from the treatise written in the year 830 by the medieval Persian mathematician, Muhammad ibn Mūsā al-Khwārizmī, whose Arabic title, Kitāb al-muḥtaṣar fī ḥisāb al-ğabr wa-l-muqābala, can be translated as The Compendious Book on Calculation by Completion and Balancing.

History of algebra - Wikipedia

The 7th to the 13th century was the golden age of Muslim learning. In mathematics they contributed and invented the present arithmetical decimal system and the fundamental operations connected with it: addition, subtraction, multiplication, division, exponentiation, and extracting the root. They also introduced the 'zero' concept to the world.

Muslim Founders of Mathematics - Muslim HeritageMuslim ...

No-one thinks Arabs invented algebra. The (false) Muslim claim to have invented it is based upon the work of one al-Khwarizmi who was a Persian, not an Arab. One of his main works refers in the title to the fact that it is based on the method of the Indians. He also borrowed heavily from the work of previous Greek scholars.
