Ebooks on Google Play Books are only available as EPUB or PDF files, so if you own a Kindle you'll need to convert them to MOBI format before you can start reading.

Living Things And The Environment

An environment includes living things such as plants, animals, people, and even the tiniest of microbes. The living portions of the environment are called the biotic parts. The nonliving portions, such as rocks, sunlight, and air, are called the abiotic parts. Interactions among organisms and their environments can be very complex because an organism gets everything it needs to survive from the biotic and abiotic parts of its environment.
