Find helpful customer reviews and review ratings for Introduction to Logic Design, 3rd Edition at Amazon.com. Read honest and unbiased product reviews from our users. ... by Alan B. Marcovitz. ... one of the best logic design books I have ever read. I used this book in a university Digital Logic class and it was one of my most valuable resources.

Amazon.com: Customer reviews: Introduction to Logic Design ...

This book was required for an introduction to Digital Design class (I am currently about one third into the class), and the book was only used for the homework. Since there wasn't really any assigned reading, the book wasn't the best for homework reference, so much as a tool to review material that was taught in the lectures.
