## About Mars

They also want to know if Mars could support life now or in the

future. Structure and

Surface. Mars is a

terrestrial planet. It is

small and rocky. Mars

has a thin atmosphere.

Mars has an active

atmosphere, but the

surface of the planet is

not active. Its

volcanoes are dead.

Time on Mars. One day

on Mars lasts 24.6

hours.

I like this Mars  
Spaceship ebook which  
comes with about  
twenty eight Mars  
pictures/illustrations  
and nineteen pages  
with Mars facts. Most of  
the  
pictures/illustrations  
are nice and clear, in  
the other hand the  
facts pages are not  
clear.

One example is Mariner 9, which entered Mars orbit in 1971 and is expected to remain in orbit until approximately 2022, when the spacecraft is projected to enter the Martian atmosphere and either burn up or crash into the planet's surface. The Viking 1 orbiter is predicted not to decay until at least 2019.
