science. Our eighth grade students are in full dissection mode in their classes! Today, they dissected worms in class. In the next two classes, students will dissect a frog virtually, then in real life.

Worm Dissection in Middle School science | Brook Hill ...

Earthworm Dissection Background: The earthworm is an invertebrate in the phylum Annelida; it is a segmented worm. The segments are distinguished on the exterior by noticeable band-like-rings; internally the segments are separated by septa. Posterior sections of the worm can be lost and survival is possible, many times with regeneration.
