For more information, please visit: Timex...com HOW TO START YOUR WATCH To start your watch remove the plastic guard from under the crown, then press the crown in against the case. The second hand will begin advancing in one-second intervals. Some deep-depth water-resistant watches require the setting crown to be screwed in to secure water-resistance. If your watch case has a protrusion with

HIGHER-FUNCTION ANALOG - Timex

The Timex Metropolitan+ uses an algorithm for distance measurement which automatically determines your stride, based on your height and speed. If you find that the distance reported does not match your actual walking or running distance you can calibrate the distance by up to +/-25% via the Smartphone application. This is done by the distance adjustment option on the watch section of the application.
