Printmaking Paper The distinguishing features of a good printmaking paper are its ability to withstand soaking and to absorb a lot of ink, often with multiple runs through a press, without disintegrating or deforming. Fine printmaking papers are made from archival fibers, which in the European printmaking tradition is usually 100% cotton.

Paper is important to printmakers. It holds our impressions. I like to use paper that allows me to print with abandon. If the paper is too precious, then I get afraid to make "mistakes." And mistakes are where the magic happens. So my go to paper for gelatin printmaking is 90 lb. sulphite drawing ...

Printmaking and Papers - Linda Germain

Lithography is a printing process based on the idea that water and oil don't mix. The technique uses a flat stone or metal plate. Apply your image

using greasy ink, then cover the litho plate with an ink-repellent substance. Printing ink will adhere to the design on the plate, not on the plain areas of the plate that won't be printed.

Lithography Supplies | BLICK Art Materials

Printmaking, an art form consisting of the production of images, usually on paper but occasionally on fabric, parchment, plastic, or other support, by various techniques of multiplication, under the direct supervision of or by the hand of the artist. Such fine prints, as they are known
