my dad recently got a pioneer pdp-508xd and i found out it plays videos from a memory/usb stick.
he however lost the manual and i can't seem to figure it out. i plug the stick in(not a euphemism)
and a screen appears and it doesn't display any of the files(had a couple of mp3's, an avi and an
mp4 video) on it. so i guess it's not a straight forward deal.
