Potter sequence is the atypical physical appearance of a baby due to oligohydramnios experienced when in the uterus. It includes clubbed feet, pulmonary hypoplasia and cranial anomalies related to the oligohydramnios. [clarification needed] Oligohydramnios is the decrease in amniotic fluid volume sufficient to cause deformations in morphogenesis of the baby.

### Potter's Pathology of the Fetus, Infant and Child | JAMA ...

This massive two-volume human pathology reference text provides nearly complete coverage of neonatal, fetal, and pediatric pathology. While it may be more than the typical veterinary pathologist might need, a copy should be available at every diagnostic facility, teaching program, and wherever embryos and fetal tissues of any species are examined for diagnostics, drug development, or research.
