or inhibit these systems by interacting with molecular and cellular targets.

Principles of pharmacology : the pathophysiologic basis of ...

This first-of-a-kind text organizes material by physiological or biochemical system rather than by drug class for mastery that surpasses what can be achieved by rote memorization. Each section begins with a clinical scenario illustrating a system; is followed by a discussion of the biochemistry, physiology, and pathophysiology of the system, and concludes with drugs and drug classes that affect the system by interacting with molecular and cellular targets.
