RX2000 - Narsain

Proton's D1200 power amplifier features a Dynamic Power on Demand (DPD) circuit design that gives it an extraordinary dynamic-headroom rating of 7.3 dB. Proton's DPD system was first used in the 40-watt DS40 amplifier, and in the D1200 it is responsible for some of the highest power outputs we have measured from any amplifier.

This Proton D940 from the early 1980's is an interesting receiver. It has a lot of similarities to the NAD receivers of the time. That's because NAD and Proton used the same manufacturer in Taiwan to produce their components. On the market from 1985 until 1991, the D940 produces 40 watts per channel and retailed for \$449.95.
