Alpine PXA-H800 Review - UPDATED 2019

you must understand that the h800 does not decode a source signal. the "multimedia player" must provide a signal decoded into 5.1 channels to the h800 the pxa-h800 takes these decoded signals from a multimedia player (like my ina-w900bt), does its processing magic (configuration, equalization, crossovers, timing, and signal strength of each) and forwards each of the 5.1 processed decoded channels to a discrete amplifier channel.
