have previously learned C sometimes have difficulty with namespaces. Some instructors wish to avoid “using namespace std;” and instead prefer to start their programs only using the constructs that are actually used (e.g. using std::cin;). The book starts using the entire namespace but gravitates toward the latter toward the end of the book.

The C language is peculiar because it is a high-level language with many of the features of a low-level language. C is somewhere in between the two extremes of a very high-level language and a low-level language, and therein lies both its strengths and its weaknesses. Like (low-level) assembly language, C language programs can directly
