Reflecting our work over recent years, this text explores scaling lean and agile development with Large-Scale Scrum. It was written with my co-author Bas Vodde, who has long and in-depth experience with very large agile product development and enterprise transformations (at Nokia Networks and NSN), and like me, has worked in large embedded systems. This books explores the foundation for a successful enterprise transformation to large-scale lean or agile product development: the thinking ...

Principle #2 - Apply systems thinking - Scaled Agile Framework. A system must be managed. It will not manage itself. Left to themselves, components become selfish, competitive, independent profit centers, and thus destroy the system. The secret is cooperation between components toward the aim of the organization.
