Concept of this manual This manual aims to support the service company installing the heater and to provide the user with all important information about the heater. The manual has been divided into 8 chapters to make it easier to find the corresponding information quickly.

AIRTRONIC / AIRTRONIC M

Heater switches into shut-down phase 20-25 seconds after being turned on (the most likely, fault code 11 found in memory) Check voltage on heater's harness on the heater's side (pins 1 and 10 on Airtronic connector). Turn the heater ON and make sure that the voltage is still OK. Repair harness and connections if necessary.
