Chapter 4 on Learning in Middle Grades and Secondary Schools begins with an appeal to use the latest research on “learning science” but that supposed science ephemeral, lacks a paradigm, and has a track record of failure. Indeed, education is rightly accused of having amnesia, forgetting what does work and repeating what did not work.

Science | NSTA

Science teachers have an exciting opportunity to teach kids about how science makes the world work.

Unfortunately, reduced teaching budgets and apathy on the part of students sometimes makes it difficult to get students interested in topics like biology, earth science, anatomy, physics, and chemistry.
