and built in pieces that provide well-defined services when requested. The services may involve performing some activity or returning some information or answer. Most current custom software development is designed and programmed using SOA.

Service-Oriented Architecture - an

Download Free Service Oriented Architecture **overview ...**

Definition - What does Service-Oriented Analysis and Design (SOAD) mean? Service-oriented analysis and design (SOAD) is a methodology that refers to the modeling and design for service-oriented architecture (SOA) applications. A SOAD approach in designing SOA applications requires the following key elements:
