Star Scaled Score To Lexile

What Does Lexile Score Mean? A student receives his or her Lexile measure from one of two ways: taking a school-administered SRI (Scholastic Reading Inventory) test, which is specifically designed to measure Lexile or reading ability OR by taking a standardized reading test which converts the reader's results to a Lexile measure. If a student gets a 550L then he or she is a 550 level Lexile reader. 550L is the measure of his or her readability level.

All other scores shown on the STAR Diagnostic Report are derived from the student's Scaled Score. The Scaled Score is especially useful in determining student progress over time. The second score included on the report is a student's Lexile® Measure. A Lexile® Measure can range from below 200L for beginning readers to above 1600L for advanced readers. The Lexile® scale is determined by MetaMetrics.

Interpreting STAR Diagnostic Reports :: American ...

Students get a Lexile® measure from an assessment of English language arts or reading. This could be the state test or another standardized test like NWEA's MAP Growth or Istation. See our national student norms data at Hub.Lexile.com for grade level comparisons.

classifications on the one hand, and Star Reading Enterprise Scaled Scores, GE scores, and ZPD ranges on the other. This table was developed by linking (equating) Star Early Literacy and Star Reading Enterprise Rasch ability scores, then converting the linkage results to Scaled Scores of the two assessments.

Using Star Early Literacy Scores to Match Books to Early ...

The problem is, measuring reading level is really outside of its sweet spot as a learning tool, with better resources available from DRA, DIBELS, Lexile, Reading Recovery, and Rigby, among others. There is also the issue of availability, with most schools only using one or two of these tools, and primarily in early elementary school.

number of correct responses. Because the same range is used for all students, scaled scores can be used to compare student performance across grade levels. STAR Reading scaled scores range from 0 to 1400. All norm-referenced scores are derived from the scaled score.

Score Definitions - Rockton Elementary School

A scale score is a conversion of the raw score onto a scale that is common to all test forms for that assessment. The scale score takes into account the difficulty level of the specific set of questions based on the test. It quantifies a student's performance relative to the passing standards or proficiency levels.
