Now, as CITs enter the seventh year of transition, perhaps lessons can be drawn from their experience which may be of value in the future to those countries that will, in time, be in transition from socialist to market-based economic systems. The goal of this paper is to review the transition experience in tax reform over the past six years, offer a preliminary evaluation of the impact of different approaches to tax reform, and extract lessons from the successes and failures of this experience.

Tax reform and policy for an economy in transition. 2 . sustainability of the tax system. Treasury is working on the policy and legislative products needed to implement those policies. • Treasury is also focussing on simplification proposals, working particularly with the Board of Taxation.

**Tax Reform and Policy for an Economy in Transition**

The transition from a command to a market economy requires profound reforms of the tax system. Such a transition will put downward pressures on the level of taxation at a time when public expenditure remains high. This paper outlines the main characteristics of the tax systems in centrally-planned economies.
